ABOUT US

DCL Integrated Logistics Sdn Bhd was founded in 2016 is a logistics provider offering total integrated services and keen to provide customized logistics solutions to clients from all respective vertical markets in local, regional, and global.

We handle large-scale international logistics needs by rendering our utmost services commitment to fulfill the demands in the market and to ensure our engaged client's Goods and Freight is transported via the most time and cost-effective means.

In DCL Integrated Logistics Sdn Bhd, we organize shipments for multiple range of industries includes manufacturer, whole seller, trading house, retailer and even personal effects cargo handling. We move all kinds of products ranked from raw material right up to heavy duty industrial cargo from the lower end to the upper end.

We do whatever possible to be part of your supply chain management and facilitate your movement of goods. Having the advantage of close contact with asset-based carrier (shipping line & airline), your cargo can be booked with variety of carrier types along the route.

As a National and International Freight Forwarder, we provide variety of services as:

Air Freight Forwarding (Domestic and International)

Ocean Freight Forwarding (FCL and LCL)

Road Freight Forwarding (Local and Cross border)

Warehousing, Storage and Distribution capability

Logistics/Shipping Consultancy

Marine Cargo Insurance

ISO Tank Lease and manage capability

Flexi Bags

ABOUT US

We provide ONE STOP SOLUTION for logistics, where we also has specialize on LCL to East Malaysia as we are the Master CoLoader for LCL from any part of Peninsula to East Malaysia whether is Door to door (DTD), Door to Port (DTP), Port to Port (PTP), Port to Door (PTD).

Below is what we believe will be an essence toward your planning, delivery and finance:

1. Multiple shipping line used = multiple frequency available for you to choose = reduce inventory = increase sales & margins

2. Seaworthy cargos is our primary cargo from our existing clientele = good container configuration = good integrity of your goods till your c/door

3. Consistent weekly departure to all EM 8 ports + Muara = easy to plan

4. Weekly Sailing Schedule available

5. We have 8~9 TEUs/wk to BKI & 6~7 TEUs/wk to KCH and remaining ports at 2~3 TEUs weekly = guaranteed departure

6. Adhering to SOLAS requirement We look forward bringing a change toward JB market in our initiative in EM segment. And we believe we will raise the bar in KPI performance.

WHY CHOOSE US

FLEXIBLE TAILORED SOLUTIONS

In DCL, we let our customers choose which is the best way for them to transport their goods. Depending on the customer's requirements, DCL is flexible to any terms as long as it is possible. We offer a full logistics service as well where you as a customer will not have to worry about the arrangements done at the back end of transportation.

WE CARE FOR YOUR BUSINESS

DCL knows how important the customers are. For us, we know that the main source of our business is our customers, which is why we need to take good care of them. We treat every customer as our partners in business, hence, we always make sure that they are happy with the services we provide. Our agents will make sure that we will provide you with exemplary customer service aside from the transporting service that we will provide you.

PROBLEM SOLVING TEAM TO HELP YOU

We understand how unpredictable the shipping business is, which is why our team is trained to have good problem-solving skills. Our team knows the ins and outs of the shipping business and they apply their experiences to ensure that our customers will experience smooth transactions every time.

OUR SERVICES

ISO TANK LEASE

Able to provide ISO tanks lease for short and long term, tailored accordingly to meet client requirement of each projects. HSSE is paramount in liquid logistics throughout the journey especially road transport. Thus, our management pillar on HSSE is important and consistently reviewed on mitigation strategy against untoward incidents as well as CI strategy and implementation. 3 important pillars we look into and they are;

- Vehicle Management
- Driver Management
- HSSE Management

These pillars has a set MS which is constantly shared through toolbox meets come with daily STL activity and scheduled audits on both equipment, system and HR.

Culture in HSSE approach is our key focus which begins with management itself driving it down to ground level. Consequence management is also key toward ensuring discipline is instilled and procedures adhered to. Driver rewards regardless own or contracted, are given out to high performers. We DO NOT sacrifice safety for profitability!!

OUR SERVICES

FLEXI BAG Flexi Bag & Collapsible IBCs

Liquid bulk clientele is constantly looking for cost effective management and some will use these application to transport their products.

Flexi Bag installation services rendered is always at site. VAS covers release valves and supervisors at site to monitor ensuring discharge is done correctly.

Collapsible IBCs are not commonly practice but used by large MNCs where we transport them to blending plants or manufacturers where linen is used inside this contraption and filling begins. Once discharge, client can opt for us on return logistics services. We bring these collapsible IBCs back to our warehouse for maintenance and washing with quality grade detergent and steam washing methods before storing it away for the next order.
